Cosmin Daniel Zmau

Growth Engineer • E-commerce & AI Automation

I build e-commerce systems that sell, on a small budget. I plan, build and launch them myself, with AI agents to move faster.

recurring paying users on my subscription app

200+

customers for a client whose last business had 14 in a year

6

AI agents I direct, one git branch each

PROFILE

I turn ideas into products that make money, quickly and on a small budget. I built the e-commerce platform behind €500K+ in sales for my own brand in 8 months, I run a subscription app with 120+ recurring paying users, and I mentored e-commerce sellers for a year. I set the plan and the offer, build hands-on and use AI agents to move faster.

EXPERIENCE

Zentorum • US online store **OWN BUSINESS**

[zentorum.com](#)

Founder • Shopify dropshipping • Oct 2026 – present

- Launched a Shopify store with a hotel-themed homepage, supplier-direct fulfillment, terms, a refund policy and an FAQ.
- Built Mili Hunter, a product-research Chrome extension: a viral score (my own weighting of third-party sales and ad data), supplier matches by photo on AliExpress, Alibaba, CJ Dropshipping and Amazon, and draft products created in my store via the Shopify Admin API.

daqverse • subscription web app for traders **OWN PRODUCT**

[daqverse.com](#)

Founder & product builder • Zentorum LLC • Mar 2026 – present

- Built and launched a paid trading journal for futures and prop-firm traders: Next.js on Vercel, user accounts and Stripe checkout.
- Shipped trade import from Tradovate and MT4/MT5, prop-firm rule presets and a daily loss limit with a hard lock.
- Set the pricing (two plans, 15% and 25% off for 3-month and yearly billing, 72-hour free trial) and built 26 feature pages, 7 search landing pages and 6 free trader tools.

RESULT 120+ recurring paying users at the September 2026 audit

SFC Detailing • auto detailing, Chicago suburbs **CLIENT**

[sfcdetailing.com](#)

Web developer & marketer • Hoffman Estates, IL • Mar 2026 – present

- Built the lead-generation site: a three-step quote form, tap-to-call and prefilled text links, a 10-question FAQ and a 212-town service area.
- Created the intro film and 3D vehicle renders with AI video tools and Blender.
- The site and daily ads bring in new clients every day.

RESULT 200+ customers so far; the owner's previous business had 14 in a full year

HOW I WORK

Hands-on, AI-accelerated. I build alongside a team of AI agents in Claude Code, each in its own git branch.

EXPERIENCE (CONTINUED)

Zentropia · own brand, Romania

OWN BUSINESS

Jan 2024 – Sep 2024

Founder · built the platform from scratch · closed for health reasons

- Built the custom e-commerce SaaS platform behind the store, connected to the Helpship.ro API to create courier tracking numbers (AWB) automatically.
- Added a landing-page auto-builder, a review builder (reviews from several platforms in one layout), a profit calculator and customer messaging.
- Automated Instagram, TikTok and Facebook posting and Meta Ads budgets.
- Built a low-cost AI video engine that finds stronger video angles, then generates and posts the videos.

RESULT €500,000+ in sales in 8 months, after a one-month setup

Ecom Evolved · e-commerce coaching, Eastern Europe

ecom-evolved.ro

E-commerce mentor · 2024 – 2025

- Mentored students for a year in a coaching program for cash-on-delivery (COD) e-commerce, from product research and testing to scaling.

Winpoint · CS2 match-prediction platform

winpoint.gg

Co-founder · 2021 – 2025

- Took Winpoint from a side project to a startup with clients: match predictions, weekly leaderboards, a Plus membership and a Discord community.

GameAgents · esports organization

Jun 2019 – Oct 2023

Co-founder · started as marketing specialist, while at university

- Wrote contracts, built the marketing strategy and brought sponsors in. COVID-19 stopped tournaments in 2020; we started Winpoint in 2021.

Fidelia Casa · real-estate agency, Iași

fideliacasa.ro

Marketing manager, then web developer & marketing manager · 2019 – 2021, 2025

- Created Fidelia Casa Brokerage with the CEO: a program that helps buyers get better home loans through Fidelia Casa Credit.
- Rebuilt the company's entire CRM and built a stronger lead-generation system.
- In 2025, came back to build an AI agent that summarizes call-center calls, logs each lead in the CRM and emails each area's agents the key details.

Endpoint Esports · UK esports organization

2018 – 2020

Professional CS:GO player, alongside university · Endpoint Academy and Endpoint x CeX

- Brand ambassador for CeX esports. Built a demo-review system where the team uploads match demos, adds notes, draws on them and shares ideas.

HSBC UK · banking

London

Intern · Jun 2018 – Aug 2018

- In a team of 8, designed balance-check concepts (no app login, ATM receipts) and proposed a privacy tint for ATM screens. The concepts were not implemented.

Arkona Medical Events · international medical conferences

2017 – 2018

Event manager & web developer · Arkona Holding

- Organized medical conferences and meetings for doctors and professors from around the world: venues, setup, recording and meet-and-greet.
- Found sponsors, negotiated deals and kept close contact with doctors worldwide.
- Helped with website development and updates for UMF Iași, the Grigore T. Popa University of Medicine and Pharmacy ([umfiasi.ro](#)).
